

Maibec Ventilated "J" Strip for Wall Top

FINISH	ACTUAL DIMENSIONS	LENGTH	INSTALLATION
Galvanized Steel	1 7/8" x 2 3/4"	10'	Horizontally and diagonally

General Specifications

A ventilated steel strip used at the top of a wall, under a window and can also be used for floor transitions.

Used with a ventilated Maibec starter strip, it allows for continuous air-flow while creating a barrier for insects and blocking the attic connection.
