General Specifications

SPECIES:

- Eastern White Cedar – *Thuja occidentalis*

MANUFACTURING

- Stellite-tipped blades: minimize raised grain.
- Kiln-dried to 12% - 16% moisture content.

PACKAGING AND COVERAGE

- 24 outside or inside corners per box, 10 linear feet/box at 5" exposure.
- 1 starter corner per box, identified with a V cut in tapered edge and a green tape at the base.
- Equal amount of narrow shingle corners (3 1/2-5") and wide shingle corners (6-8") in every box.

AVAILABLE COLORS

- Maibec solid stain color chart.
- Semi-transparent "Spice" series.
- Unlimited choice of solid colors thanks to our TrueMatch® system.
- H2BO water-based bleaching stain (one coat)

FACTORY-STAINING

- Every shingle is factory-coated on all sides in a controlled environment for maximum stain absorption and retention. This also provides increased protection from the damaging effects of the sun and the elements.

- Following the stain application, the shingles are sent through a state of the art drier for curing. The product of European technology, this drier cures the stain from the inside out. The shingles are then cooled down and packaged. This unique system increases the durability of the product once installed.
- Low-volatile organic compounds (VOCs) water-based stains.

FSC® mixed sources certified shingles available upon request.

For exterior use only.

The Maibec® Woven Corner

Installation System

STAPLES

- Stainless steel or aluminum staple with minimum 7/16" crown, minimum 16 gauge.
- Two fasteners per shingle, regardless of its width.

NAILS

- Stainless steel or hot dipped galvanized
- Ring shank blunt tip nail with minimum 7/32" head
- Two fasteners per shingle, regardless of its width.

Installation

FASTENING REFERENCE LINE

Maibec shingles feature a fastening reference line found 6 1/4" from the base of the shingle. For the 5" shingle exposure, fasten just below the reference line to respect the installation requirement. Each individual shingle is marked on one side.
