**Manufacturing**

- Stellite-tipped blades: minimize raised grain.
- Kiln-dried to 14 % - 18 % moisture content.

**Factory-Staining**

Every shingle is factory-coated on all sides in a controlled environment for maximum stain absorption and retention. This also provides increased protection from the damaging effects of the sun and the elements.

Following the stain application, the shingles are sent through a state of the art drier for curing. The product of European technology, this drier cures the stain from the inside out. The shingles are then cooled down and packaged. This unique system increases the durability of the product once installed.

**Packaging and Coverage**
