

How to Calculate

How to calculate the amount of shingles needed

Example – Area to cover: 1,000 ft²

MAIBEC SHINGLES

For 5" exposure, add 3% to the area to cover.

$$1,000 \text{ ft}^2 \times 1.03 = 1,030 \text{ ft}^2$$

$$1 \text{ box} = 25 \text{ ft}^2$$

$$1,030 \text{ ft}^2 = 41 \text{ boxes}$$
